

The East Falls Historical Society

Presents a VIRTUAL Walking Tour Via Zoom

ARCHITECTURAL GEMS OF UPPER EAST FALLS: A REPRISE *PLUS*

Led by Steven Peitzman, MD
Drexel University; Vice-President, EFHS

Wednesday, October 14, 2020 at 7 p.m.

Free, but donations and new memberships welcome!
Find the membership form on our website*

In 2015 the late Ken Hinde and I created a walking tour of selected buildings in the “upper” East Falls (formerly Queen Lane Manor), representing a variety of architectural styles. On this *virtual* walk we will revisit some of these, but also ignore time and distance to look at some other gems, even wandering a ways into Germantown! Of course, we will tell the stories of the various sites. – Steve Peitzman

Registration is not needed. We will email the Zoom link to members and post it on our website on October 13.

Coming in December: Our beloved Falls Bridge, built in 1895, is now 125 years old, and in the next few years will undergo major restoration. On Wednesday, December 9, 2020, at 7:00 pm by Zoom, engineer and preservationist Justin Spivey will present a talk on the history and structure of the bridge. Time permitting, he will also tell us about the 1854 Reading viaduct (“The Skew Bridge”), just downstream from the Falls Bridge. Details will follow--mark the date.
